Comprehensive Coverage

COMPREHENSIVE PROTECTION

ALLSURFACE appearance protection sets the standard for automotive protective coatings. Its new exterior protection formula features **graphene and ceramic technology** to create a durable barrier between your automobile's paint and daily environmental hazards.

ALLSURFACE provides a comprehensive exterior and interior protection package that far exceeds the limited coverage offered by standard warranties.

NEW FORMULA

The new **ALLSURFACE** formula combines the strength of **graphene** with the smooth finish of ceramic coating that seals microscopic pores in the surface of the exterior clear coat and provides lasting exterior protection

WHAT IS GRAPHENE?

Graphene is a single layer of carbon atoms arranged in a two-dimensional honeycomb lattice. It is up to 100 times stronger than steel of equal thickness.

EXTERIOR PROTECTION

INTERIOR PROTECTION

GRAPHENE AND CERAMIC TECHNOLOGY

Exterior

Your vehicle's exterior is exposed to daily hazards from the environment, severe weather, and road conditions.

ALLSURFACE seals and protects paint and provides a layer of defense between your vehicle and these hazards.

Backed by one of the most comprehensive warranties in the industry.

Fabric Protection

- Seals out water and oil-based stains.
- Extends the life of fabric and carpet.
- Contains inhibitors to retard fading.
- Free of fluoropolymers.

Leather / Vinyl Protection

- Creates a barrier against stains.
- Protects against premature aging.
- Retains natural softness.
- Makes clean-up easy.
