MINI GAP PROTECTION

WHAT IS THE “GAP”?

In the event of a vehicle theft or an accident that results in a total loss, insurance companies only reimburse the owner for the market value of the vehicle. This, along with the deductible, can create a significant gap between what your insurer will pay you and the balance on your loan.

TRUST THE EVIDENCE.

Because of common risks associated with theft, collision and natural disaster, the chances of your vehicle being involved in a total loss are greater than you think. With MINI GAP, you can be confident your loan deficiencies and insurance deductibles will be waived.**
